To the FBI Everywhere, USA

Questions? **JUST ASK**

**Message from
Richard Chichakli**

Dear FBI:

I understood that when the agents visited my family's home in Texas on 10/7/2005 to return my son's computer, they took the opportunity to express two points. First, to articulate the "Administration's unhappiness with my website" and second, to SMARTLY state that "they have a pretty good idea where I am about?"

Since I love to help, and in order to clarify the puzzling issues, I am writing to you with some details.

1. Concerning the website, I think you should thank me because I am clearing a lot of the stupid things you blindly believed out of reading internet garbage, and of course for giving you a head-up "sample" of what you should expect if you fail to kill me and the case goes to court.
2. As for my where about, you are acting again like I'd never called Dennis Brady from Russia or discussed the matter with John Cox and given them my phone number? Nonetheless, and just to MAKE SURE that the Government maintains more than a "pretty good idea" about where I am, please take note that I am still in Russia, my E-mail is cpa@txcpa.net, my phone number is +79166404012, and my attorney Clay Scott, Jr. who's number is 214 358-0341 has all of this information and shall provide to you any time you loose the information again, or if you feel that you lost track.

Furthermore, should you have any questions about this case, Victor Bout, the weather in Moscow, or just want to ask how I'm doing, please feel free to call or drop me an e-mail at anytime. As I stated on 4/26/2005 after you raided my home, and particularly, when we had lunch at Razzoo's, I shall be delighted to answer any of your questions.

Sincerely

Richard Chichakli
